PERSONALPROFILE

Enthusiastic and highly motivated Full Stack Developer with a strong foundation in web development technologies, including HTML, CSS, JavaScript, React, Node.js, and SQL Skilled in both front-end and back-end development, with a keen interest in building responsive and scalable web applications. Committed to continuous learning and self-improvement, staying up-to-date with emerging tools and technologies in the field. A collaborative team player with excellent problem-solving skills, ready to contribute to a dynamic development environment and take on new challenges.

PROJECT

Project:Aeroplane Ticket Booking Website

Built a simple yet functional Aeroplane Ticket Booking Website using HTML, CSS. The website allows users to search for flights, view available options, and select flights for booking. Features include dynamic flight search based on user inputs (destination, date, etc.), a clean and responsive design, and a booking summary page.
